III. Pursuant to cited authority and effective July 1, 2004, the DLA Enterprise Transformation concept affecting Information Operations (J-6), Financial Operations (J-8), and DLA Support Services (DSS) will take place.

A. Effective October 3, 2004, the Information Technology offices of DLA Field Activity (FA) are disestablished and their missions, functions, and resources are realigned as J-6 Field Sites located in each field activity and under operational control of Enterprise Solutions (J-64), a Directorate of Information Operations (J-6), which reports to the Director, DLA.

B. Effective October 3, 2004, the Financial Services offices of every DLA FA are operationally aligned with Headquarters (HQ) Financial Operations (J-8), which reports to the Director, DLA. Each J-8 Field Activity remains organizationally aligned to provide on-site financial support to the respective Field Activity with the Field Activity J-8 resources under the operational control of HQ J-8. The day-to-day staff work will be conducted as a collaborative effort between the on-site FA financial management staff and the HQ J-8 financial operations teams for program budget and accounting financial services.

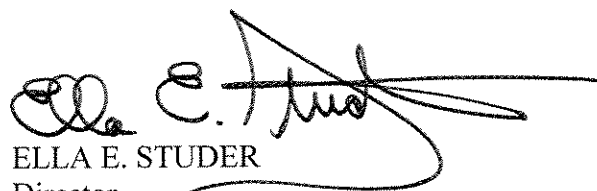

C. Effective October 3, 2004, the DLA Support Services (DSS) is disestablished and its missions, personnel, resources, administration and functions are re-established as DLA Enterprise Support (DES), under the Director, DLA. The FA support organizations will be disestablished and their missions, personnel, resources, administration and functions are re-established as DLA Enterprise Support (Field Activity Name), under the Director, DES.

D. Each of the above Enterprise-wide organizational changes is detailed in the respective attachments to this General Order.

IV. This General Order formalizes the DLA Enterprise Transformation organization based on the approved mission areas concept of operation.

V. Administrative services and support will be provided by HQ DLA organizations as appropriate.

FOR THE DIRECTOR:

ELLA E. STUDER
Director
DLA Enterprise Support

III. Pursuant to cited authority and effective July 1, 2004, the Information Technology (IT) offices of the DLA field activities are under Operational Control (OPCON) of the Director, Information Operations (J-6). Consequently, the J-6 will begin a phased implementation process. Effective October 3, 2004 (Fiscal Year 2005), the interim organizational structure for payroll cost reporting and enterprise realignment of IT personnel to field activities will occur.

The organizational code (Y code structure: Enclosure 2) will provide for consistent cost reporting of enterprise IT assets and budget execution. J-6 will maintain administrative and OPCON of all IT financial resources. Existing activity codes, operating budgets, and source of financing will remain unchanged during FY05 with the exception of the DLA Systems Integration Offices (DSIO) and elements of the Fort Belvoir, Europe, and Pacific organizations. Administrative shifts of funding to the DSIOs will be realigned to the receiving activity designated in paragraph III-A-5-f. The Y code organization structure will be established to supplement existing activity codes and provide visibility of IT resources.

The IT offices of every DLA field activity are disestablished and their missions, functions, and resources are realigned as IT resources located in each DLA activity. OPCON of the IT field sites will reside with Enterprise Solutions (J-64), a Directorate of J-6 which reports to the Director, DLA.

The second phase in FY06 will realign the funding structure and personnel of the Enterprise IT assets via a subsequent General Order.

A. DLA Headquarters (HQ) J-6: J-6 at DLA HQ provides policy, plans, procedures, guidance, and oversight to DLA's IT operations. The following organizational elements and their missions, functions, and resources are affected as follows:

1. Information Operations (J-6) is unchanged.
2. Information Assurance (IA) (J-61) is established. J-61 serves as the principal agent for DLA on information security policy and procedures and provides technical guidance as necessary.
 - a. IA Environment and Resources (J-6331) is disestablished and the missions, functions, and resources are realigned as IA Policy and Oversight (J-611).
 - b. IA Enterprise Controls (J-612) is established. J-612 ensures the implementation of DLA Enterprise IA controls to enforce the Department of Defense (DoD), Defense-in-Depth and Computer Network Defense programs.
3. Program Executive Office (PEO) (J-62) is realigned as follows.
 - a. PEO Operations (J-621) is renamed Program Alignment, Integration, and Engineering. The mission is expanded to provide program alignment with the Business Enterprise Architecture, program oversight, and integration and synchronization for DLA's emerging Automated Information Systems, and to improve business systems engineering practices.
 - b. The title of the Business Systems Modernization (BSM) Program Management Office (J-622) is unchanged.
 - c. Customer Relationship Management (CRM) Program Management Office (J-623) is unchanged.
 - d. Fuels Automated System (FAS) Program Management Office (DESC-S Program Office, J-624) is disestablished. The missions and functions associated with FAS PMO are realigned as part of the J-622.
 - e. Program Data Management Initiative (PDMI) Program Management Office (J-624) is established. J-624 provides program management for the PDMI program, which automates technical business functions and includes core product data management/product life cycle management capabilities.
 - f. Enterprise Integration (J-625) is established. J-625 is responsible for the missions and functions associated with the Defense Logistics Management Standards Office, Logistics Enterprise Services, and Automated Information Technology.
 - g. Defense Logistics Management Standards Office (J-6251) is established. J-6251 is realigned from Enterprise Standards and Integration (J-6411). J-6251 administers the Defense Logistics Standard System (DLSS), the Defense Logistics Management System (DLMS), the DoD Physical Inventory Control Point, the Interfund Billing System (IBS), the Customer Wait Time (CWT), and other designated standard logistics and programs for the DoD.
 - h. Logistics Enterprise Services (LES) (J-6252) is established. J-6252 is realigned from Enterprise Standards and Integration (J-641). LES manages the integration of information systems at the DoD Enterprise level, providing near real term, accurate, and actionable data regarding the warfighters' logistics situation.

- i. Automatic Information Technology (AIT) (J-6253) is established. J-6253 is realigned from Enterprise Standards and Integration (J-641). AIT serves as functional integrator responsible for promoting, coordinating, and documenting the application of DoD and Joint Logistics AIT doctrine, technologies, and processes in support of the warfighters.
 - j. Integrated Data Environment (IDE) Program Management Office (J-626) is unchanged.
- 4. Technology Services (J-63) is disestablished.
 - a. HQ IT Services (J-631) is disestablished and the missions, functions, and resources are realigned as J-6 Fort Belvoir, J6F (DESC-YF).
 - b. Enterprise Infrastructure (J-632) is disestablished and the missions, functions, and resources are realigned as Enterprise Infrastructure (J-641).
 - c. Information Assurance (J-633) is disestablished and the mission, functions, and resources are realigned to Information Assurance (J-61).
 - d. Enterprise Licensing (J-634) is disestablished and the missions, functions, and resources are realigned as Enterprise Licensing (J-654).
- 5. Enterprise Solutions (J-64) is realigned as follows.
 - a. Enterprise Standards and Integration (J-641) is renamed Enterprise Infrastructure.
 - b. IT Architecture (J-6321) is disestablished and realigned as the Infrastructure Services (J-6411). The missions, functions, and resources of J-6321 are realigned as J-6411.
 - c. Enterprise Telecommunications (J-6322) is disestablished and realigned Enterprise Telecommunications (J-6412). The missions, functions, and resources of J-6322 are realigned as J-6412.
 - d. IT Governance and Continuity Operations (J-6323) is disestablished and realigned IT Governance and Continuity Operations (J-6413). The missions, functions, and resources of J-6323 are realigned as J-6413.
 - e. The Defense Automatic Addressing Systems Center (DAASC) is realigned from Enterprise Standards and Integration (J-641) to J-6 Dayton, J6D (DAASC-YD).
 - f. The DLA Systems Integration Office in Columbus (DSIO-S) and its sub-elements are disestablished and realigned with J-6 Columbus, J6C (Defense Supply Center Columbus (DSCC-YC)). The DLA Systems Integration Office in Philadelphia (DSIO-P) and its sub-elements are disestablished and realigned with J-6 Philadelphia, J6P (Defense Supply Center Philadelphia (DSCP-YP)). The DLA Systems Integration Office in Battle Creek (DSIO-J) and its sub-elements are disestablished and realigned with J-6 Battle Creek, J6B (Defense Logistics Information Service (DLIS-YB)). The DLA Systems Integration Office in Ogden, Utah (DSIO-U) and its sub-elements are disestablished and realigned with J-6 Utah, J6U (Defense Distribution Center New Cumberland (DDC-YU)). The DLA Systems Integration Office at Fort Belvoir (DSIO-E) and its sub-elements are disestablished and realigned with J-6 Fort Belvoir, J6F (Defense Energy Support Center (DESC-YF)). DSIO Financial Management resources and associated mission, functions, and resources are disestablished and realigned to J-8.

- g. Solutions Delivery (J-642) is realigned as follows.
 - i. Plans, Procedures, and Assessments (J-6421) is realigned to J-644. Elements of J-6421 are realigned into IT Solutions (J6FS) (DESC-YFS).
 - ii. Customer Fulfillment (J-6422) is realigned to J-642.
 - iii. Capabilities Analysis (J-6423) is disestablished.
- h. Enterprise Architecture (J-643) is realigned as follows.
 - i. Portfolio Management/Capabilities Analysis (J-6431) is established and the missions, functions, and resources of J-6423 are realigned to J-6431.
 - ii. Software Process Improvement (J-6432) is established. J-6432 manages the framework for process improvement activities and provides guidance towards process improvement implementation efforts within the J-6 organization.
 - iii. Architecture Development and Compliance (J-6433) is established. J-6433 is responsible for coordination and development of Enterprise Architecture products and policies, ensuring compliance with Department of Defense (DoD) business and technical architectures, and is the primary DLA source for DoD enterprise architecture data calls.
- i. Plans, Procedures, and Assessments (J-644) is established. J-6421, Plans, Procedures, and Assessments is disestablished and the missions, functions, and resources are realigned to J-644. Elements of J-6421 are realigned to J-6 Fort Belvoir IT Solutions, J6FS (DESC-YFS).
- 6. Strategy, Policy, and Business Support (J-65) is realigned as follows.
 - a. IT Policy (J-651) remains unchanged.
 - b. Business Management (J-653) remains unchanged.
 - c. The missions, functions, and resources associated with Portfolio Management in J-652 are realigned to Portfolio Management/Capabilities Analysis/Software Process Improvement (J-6431).
 - d. Resources Management (J-652) in Strategy, Policy, and Resources (J-65) is disestablished. The mission, functions, and resources are realigned to J-8.
 - e. Enterprise Licensing (J-654) is established. The missions, functions, and resources of J-634 are realigned to J-654.

B. J-6 Battle Creek, J6B (DLIS-YB): J6B provides IT services to the Defense Reutilization and Marketing Service (DRMS), DRMS Headquarters, and infrastructure support to DRMS field personnel in the U.S. Northern Command (NORTHCOM) and U.S. Southern Command (SOUTHCOM) Area of Responsibility (AOR), and the Defense Logistics Information Service (DLIS). The following organizational elements and their missions, functions, and resources are affected as follows:

- 1. The DRMS Chief Information Office (DRMS-C) is disestablished and realigned as DRMS-YB.
- 2. The DLIS Directorate of Technology Management (DLIS-T) and its sub-elements are disestablished.

3. The Logistics Systems Business Support Unit (DSIO-J) and its sub-elements are disestablished.
4. The following DLIS organization elements including personnel will remain at their present locations but are realigned under J6B (DLIS-YB): the Office of the Commander (DLIS-D); the Directorate of Cataloging (DLIS-K); the Directorate of Logistics Information Management (DLIS-S); the Directorate of Logistics Initiatives (DLIS-X); and the Directorate of Customer Products and Services (DLIS-V), with the exception of personnel, resources, and functions that support Web Solutions.
5. Directorate of Enterprise Systems, J6BE (DLIS-YBE) is established. The following sub-elements of J6BE (DLIS-YBE) are established: Logistics Information Systems and Solutions, J6BEL (DLIS-YBEL); Reutilization Systems and Solutions, J6BER (DLIS-YBER); Web Solutions, J6BEW (DLIS-YBEW). The mission, functions, and resources are realigned from DRMS, DLIS, and DSIO-J that support the following:
 - a. Application Division (DRMS-CA) is realigned to Web Solutions, J6BEW (DRMS-YBEW).
 - b. Interactive Products Branch (DLIS-VPM); Logistic Systems Business Support Unit (DSIO-J), Defense Reutilization and Marketing System Automated Information System (DAISY) Maintenance Division (DSIO-JA), Federal Logistics Information System (FLIS) Maintenance Division (DSIO-JB), and Systems Support Division (DSIO-JC) that support Web Solutions are realigned into Web Solutions Division, J6BEW (DLIS-YBEW).
 - c. DAISY Maintenance Division (DSIO-JA) and Requirements, Data Modeling, and Testing Division (DSIO-JR), that support Reutilization Systems and Solutions are realigned into Reutilization Systems and Solutions Division, J6BER (DLIS-YBER).
 - d. Systems Support Division (DSIO-JC) supports Logistics Information Systems and Solutions is realigned into Logistics Information Systems and Solutions Division, J6BEL (DLIS-YBEL).
6. Directorate of Technology Management, J6BT (DLIS-YBT) is established. The following sub-elements are established within J6BT (DLIS-YBT): Information Assurance, J6BTA (DLIS-YBTA); IT Infrastructure, J6BTI (DLIS-YBTI); Mid-Tier/Mainframe Support, J6BTIM (DLIS-YBTIM); Telecommunications and Local Infrastructure, J6BTIL (DLIS-YBTIL); IT Solutions, J6BTS (DLIS-YBTS); Configuration Management, J6BTSC (DLIS-YBTSC); Reutilization Projects, J6BTSR (DLIS-YBTSR); Testing and Architecture, J6BTST (DLIS-YBTST); IT Management Support, J6BTM (DLIS-YBTM). The missions, personnel, resources, administration and functions are realigned from DRMS, DLIS, and DSIO-J that support the following:
 - a. Operations Division (DRMS-CS) is realigned to Information Assurance, J6BTA (DRMS-YBTA).
 - b. Information Assurance (DLIS-TS); and Systems Support Division (DSIO-JC) that support Information Assurance are realigned into Information Assurance Division, J6BTA (DLIS-YBTA).
 - c. Operations Division (DRMS-CS) is realigned to IT Infrastructure, J6BTI (DRMS-YBTI).

- d. Telecommunications Division (DLIS-TC); Configuration Management Division (DLIS-TQ); Systems Support Division (DSIO-JC) that support IT Infrastructure are realigned into IT Infrastructure Division, J6BTI (DLIS-YBTI); Telecommunications and Local Infrastructure Branch, J6BTIL (DLIS-YBTIL) and Mid-tier/Mainframe Support Branch, J6BTIM (DLIS-YBTIM).
- e. Operations Division (DRMS-CS); Policy, Planning and Resource Management Division (DRMS-CP); and Applications Division (DRMS-CA) are realigned to IT Solutions, J6BTS (DRMS-YBTS).
- f. Systems Assurance (DLIS-TA); Configuration Management Division (DLIS-TQ); Logistic Systems Business Support Unit (DSIO-J); and Systems Support Division (DSIO-JC) that support IT Solutions are realigned into IT Solutions Division, J6BTS (DLIS-YBTS); Configuration Management Branch, J6BTSC (DLIS-YBTSC); Reutilization Projects Branch, J6BTSR (DLIS-YBTSR); and Testing and Architecture Branch, J6BTST (DLIS-YBTST).
- g. Operations Division (DRMS-CS) and Policy, Planning & Resource Management Division (DRMS-CP) are realigned to IT Management Support, J6BTM (DRMS-YBTM).
- h. Directorate of Technology Management, (DLIS-T); Systems Assurance Division (DLIS-TA); Configuration Management Division (DLIS-TQ); and Logistics Systems Business Support Unit (DSIO-J) that support IT Management are realigned into IT Management Support Division, J6BTM (DLIS-YBTM). DSIO-J Financial Management resources and associated mission, functions, and resources are disestablished and realigned to J-8.

C. J-6 Columbus, J6C (DSCC-YC): J6C provides IT services to the Defense Supply Center Columbus (DSCC) and J-1's Customer Support Office-Columbus (CSO-C). The following organizational elements and their missions, functions, and resources are affected as follows:

- 1. The Information Technology Business Support Office (DSCC-BB), Information Technology Unit (DSCC-BE) and the Systems Integration Team (DSCC-BPD) are being realigned into J6CMA. The Directorate of Corporate Information (DSCC-B) and Acquisition Unit (DSCC-BP) are not disestablished, only the Information Technology Specialists (2210) in DSCC-BP are transferred to J6CMA.
- 2. Customer Support Office Columbus, Information Services (CSOC DCIT) is disestablished.
- 3. The DLA Systems Integration Office in Columbus (DSIO-S) and its sub-elements are disestablished.
- 4. Standard Automated Materiel Management System (SAMMS)/Defense Integrated Subsistence Management System (DISMS) Production Support, Defense Enterprise Computing Center Columbus (DISA DECC) is transferred to the Defense Logistics Agency and will be aligned into Legacy Production Control, J6CSP (DSCC-YCSP).
- 5. J-6 Columbus. J6C (DSCC-YC) is established by realigning the following elements from DSCC, CSO-C, and DSIO-S:
 - a. DLA Computer Emergency Response Team (CERT), J6CC (DSCC-YCC) and its sub-elements are established. Information Assurance Branch (DSIO-SIA) is realigned into J6CC (DSCC-YCC), the DLA Computer Emergency

Response Team (CERT). The DLA CERT serves as the principal advisor to DLA on technical aspects of (IA). DLA CERT is established as follows:

J6CC (DSCC-YCC): DLA Computer Emergency Response Team (CERT)

J6CCA (DSCC-YCCA): Assessment Branch

J6CCO (DSCC-YCCO): Oversight Branch

- b. Network Operations Branch (DSIO-SON) is realigned into the DLA Network Management Office (NeMO), J6CN (DSCC-YCN) and its sub-elements. DLA NeMO serves as the principal advisor to DLA on technical aspects of network operations and provides 24 hours 7 days a week support for the DLA Enterprise Telecommunications Network (ETN). The DLA NeMO is established as follows:

J6CN (DSCC-YCN): DLA Network Management Office (NeMO)

J6CNA (DSCC-YCNA): Network Management A Branch

J6CNB (DSCC-YCNB): Network Management B Branch

- c. Applications Administration Branch (DSIO-SOC) and BSM support positions in Business Systems Support Division (DSIO-SB) are realigned into the BSM Solutions Division and its sub-elements, J6CB (DSCC-YCB). BSM Solutions acts as the principal advisor for managing, controlling, tracking, and reporting on all Business Systems Modernization development and integration projects. The BSM Solutions Division is established as follows:

J6CB (DSCC-YCB): BSM Solutions Division

J6CBR (DSCC-YCBR): Business Requirements Branch

J6CBA (DSCC-YCBA): Applications Administration Branch

J6CBE (DSCC-YCBE): BSM Engineering Branch

- d. Systems Integration Team (DSCC-BPD), SAMMS and DISMS production support personal (DISA DECC Columbus), non-BSM support positions in Business Systems Support Division (DSIO-SB) and Enterprise systems support positions in Systems Integration Team (DSCC-BPD), Electronic Commerce Support Team (DSCC BPE), Acquisition Systems Integration Team (DSCC-BPS) and Networked Server Technology Team (DSCC BET) are realigned into J6CS (DSCC-YCS), the IT Solutions (Non-BSM) Division and its sub-elements. IT Solutions (Non BSM) acts as the principal advisor for managing, controlling, tracking, and reporting all contemporary/legacy Business Systems development and integration projects. The IT Solutions (Non-BSM) Division is established as follows:

J6CS (DSCC-YCS): IT Solutions (Non-BSM) Division

J6CSS (DSCC-YCSS): Sustainment (Non-BSM) Branch

J6CSI (DSCC-YCSI): Innovation Branch

J6CSP (DSCC-YCSP): Legacy Production Control Branch

- e. Enterprise Infrastructure Planning Branch (DSIO-SIP), System Software/Middleware Branch (DSIO-SIS) and Systems Administration Branch (DSIO-SOA) as well as Enterprise IT support positions in Customer Support Office Columbus, Information Services (CSOC DCIT), Networked Server Technology Team (DSCC BET) and Operations Support Branch (DSIO-SOO) are realigned into the IT Infrastructure Division and its sub-elements, J6CI (DSCC-YCI). IT Infrastructure advises DLA J-6 in matters

relating to the definition of requirements for and maintenance of the DLA IT architecture and technical infrastructure, provides configuration and release management for all J6C (DSCC-YC) developed/integrated systems and supports both enterprise server environments and the J6C (DSCC-YC) network and server environments. The IT Infrastructure Division is established as follows:

- J6CI (DSCC-YCI): IT Infrastructure Division
- J6CIE (DSCC-YCIE): Environmental Software Branch
- J6CIW (DSCC-YCIW): WIN Systems Administration Branch
- J6CIU (DSCC-YCIU): UNIX Systems Administration Branch
- J6CIP (DSCC-YCIP): Infrastructure Planning Branch

- f. Information Assurance Team (DSCC-BEA), Application Integration and Development Team (DSCC-BEE) and End User Support Team (DSCC-BEU) as well as local Information Assurance and end user support positions in Customer Support Office Columbus, Information Services (CSOC DCIT) and Operations Support Branch (DSIO-SOO) are realigned into Operations Division, J6CO (DSCC-YCO) and its sub-elements. Operations assures the secure operation of the DLA Recovery Center (DRC), the NeMO/ETN, the J6C (DSCC-YC), the DSCC and the CSOC environments and provides support to end users in the local community. The Corporate Operations Division is established as follows:

- J6CO (DSCC-YCO): Operations Division
- J6COH (DSCC-YCOH): End-User Support Branch
- J6COM (DSCC-YCOM): Environment Management Branch
- J6COO (DSCC-YCOO): IA Operations Branch

- g. Information Technology Business Support Office (DSCC-BB) and Support Services Office (DSIO-SS) are realigned into the Management Support Services Division and its sub-elements, J6CM (DSCC-YCM). DSIO-S Financial Management resources and associated mission, functions, and resources are disestablished and realigned to J-8. Management Support Services serves as the J6C (DSCC-YC) Staff Office and principal advisor to the J6C (DSCC-YC) Director on all matters pertaining to business and acquisition support services. The Management Support Services Division is established as follows:

- J6CM (DSCC-YCM): Management Support Services Division
- J6CMA (DSCC-YCMA): Acquisition Services Branch
- J6CMB (DSCC-YCMB): Business Services Branch

D. J-6 Dayton, J6D (DAASC-YD): J6D provides IT services to DAASC. The following organizational elements and their missions, functions, and resources are affected as follows:

1. DAASC-S is realigned into J6D (DAASC-YD).
2. J6D (DAASC-YD) is established by realigning the following elements from DAASC.
 - a. Information Assurance, J6DA (DAASC-YDA) is established. Information Assurance provides specialized technical expertise on information assurance, infrastructure protection and planning; oversees the development and maintenance of all documentation to maintain the DAASC Authority to Operate; oversees the

DAASC IA program to ensure the program is executed as designed; and develops and implements Public Key Infrastructure (PKI) policies and procedures.

- b. Technology Division (DAASC-VS) is realigned into IT Solutions (J6DS) (DAASC-YDS). The following sub-elements are established within J6DS (DAASC-YDS): Engineering, J6DSA (DAASC-YDSA); EBUS/DGATE, J6DSB (DAASC-YDSB); DBASE, J6DSC (DAASC-YDSC); and DDATA/IDE, J6DSD (DAASC-YDSD). IT Solutions designs, develops, and implements systems that process transactions using customer business rules; manages data repositories and transaction databases; and provides program management oversight for DAASC services, systems, and products.
- c. Eastern Operations Division (DAASC-VE) and the Western Operations Division (DAASC-VW) are realigned into IT Infrastructure, J6DI (DAASC-YDI). The following sub-elements are established within J6DI (DAASC-YDI): Infrastructure, J6DIA (DAASC-YDIA); Operations, J6DIB (DAASC-YDIB); and Tracy Site Management, J6DIC (DAASC-YDIC). IT Infrastructure manages DAASC hardware, software, communications (LAN and WAN), and interoperable computing solutions; manages the DAASC computing environment; and provides oversight for DAASC systems and platforms.
- d. Logistics Division (DAASC-VL) is realigned into IT Management Support, (J6DM) (DAASC-YDM). The following sub-elements are established within J6DM (DAASC-YDM): Acquisition, J6DMA (DAASC-YDMA); Logistics, J6DMC (DAASC-YDMC), and Customer Support Office, J6DMD (DAASC-YDMD). IT Management Support provides DAASC acquisition management, site administration, and related business support services; provides functional design support to DAASC's customers; provides logistics management information services; and provides centralized customer support services.
- e. Elements of Planning and Resource Management (SZ) are disestablished and realigned to Financial Operations, J-8 (DAASC-R).

E. J-6 Europe, J6E (DLAE-YE): J6E provides IT services to all DLA elements on the European, African and Asian continents as covered within the European Command (EUCOM) AOR, including DLA-Europe (DLA-E), Defense Supply Center Philadelphia-Europe (DSCP-E), Defense Distribution Depot Europe (DDDE), Defense Distribution Depot Sigonella (DDSI), Defense Energy Support Center-Europe (DESC-E), Defense Reutilization and Marketing Service FST-Europe/SWA (DRMS-FST), Defense Logistics Information Service in Europe (DLIS), and Defense Automation and Printing Service-Europe (DAPS-E). Additionally, J6E (DLAE-YE) will be responsible for DLA activities in Southwest Asia within the Central Command (CENTCOM) AOR for which the above named organizations are responsible. The following organizational elements and their missions, personnel, resources, administration, and functions are affected as follows:

1. DLA-E-HE and DSCP-UXI and its sub-elements are disestablished.
2. J-6 Europe, J6E (DLAE-YE) is established by realigning the following elements from DLA-E, DSCP-E, DESC-E, DRMS-E, DLIS, and DAPS-E:
 - a. Elements of DLA-E-HE and DSCP-UXI are realigned into J6E (DLAE-YE) Director and Deputy.

- b. Elements of DLA-E-HE and DSCP-UXI are realigned into Information Assurance, J6EA (DLAE-YEA). IA provides the technical and managerial measures designed to assure the confidentiality, possession or control, integrity, authenticity and utility of information and information systems are in place.
- c. Elements of DLA-E-HE, DSCP-UXI, and DESC-JB are realigned into IT Plans and Programs, J6EP (DLAE-YEP). IT Plans and Programs manages the portfolio of IT projects for J6E (DLAE-YE) to achieve benefits of strategic importance. Provides the overall control of special projects and definition through to their completion.
- d. Elements of DLA-E-HE, DSCP-UXI, DRMS-ING & CS, DRMS-IMA, and DAPS-80KA are realigned into IT Infrastructure, J6EI (DLAE-YEI). IT Infrastructure is responsible for LAN/WAN infrastructure that integrates all supported users; telecommunications hardware and software support, including design and development, configuration, acquisition, installation, and technical support services; and manages and administers the network infrastructure, which includes the computer room, LAN, WAN, and mid-tier servers.
- e. Elements of DLA-E-HE, DSCP-UXI and DESC- S are realigned into Forward/Contingency IT Support, J6EF (DLAE-YEF). Forward/Contingency IT Support provides IT enterprise services to non collocated DLA activities and serves as the IT team member of teams provided by DLA at the request of a Combatant Commander, and directed by the National Command Authorities (NCA) in support of a Combatant Commander Joint Task Force (JTF) or subordinate unified commander for regional conflicts, contingency operations, mobilization, emergencies, flexible deterrent options, peacetime disaster relief operations, exercises, or other situations.

F. J-6 Fort Belvoir, J6F (DESC-YF): J6F provides IT services to DLA Headquarters, all elements of the Defense Energy Support Center (DESC) and the Defense National Stockpile Center (DNSC). The following organizational elements and their missions, functions, and resources are affected as follows:

- 1. HQ IT Services (J-631) is disestablished.
- 2. The DESC Infrastructure Support Division (DESC-SA) and its sub-elements are disestablished.
- 3. DLA's Systems Integration Office-Energy (DSIO-E) and its sub-elements are disestablished.
- 4. J-6 Fort Belvoir, J6F (DESC-YF) is established by realigning the following elements from DLA Headquarters, DESC, and DSIO-E:
 - a. Information Assurance, J6FA (DESC-YFA) is established. Information Assurance Operations (J-6332) and the DESC Infrastructure Support Division (DESC-SA) are disestablished and realigned into Information Assurance, J6FA (DESC-YFA). Information Assurance is responsible for oversight and execution of the IA program covering all systems and users supported by J6F.
 - b. IT Solutions, J6FS (DESC-YFS) is established. The following sub-elements are established within J6FS (DESC-YFS): Configuration Management, J6FSC (DESC-YFSC); Applications Support, J6FSA (DESC-YFSA); and Web Development, J6FSW (DESC-YFSW). Elements of the DNSC Office of

Resource Management (DNSC-R), the DLA Systems Integration Office-Energy (DSIO-E), DESC Infrastructure Support Division (DESC-SA), Solutions Delivery (J-642), and Headquarters IT Services (J-631) are realigned into IT Solutions, J6FS (DESC-YFS). IT Solutions is responsible for Web development and technical support for sustainment, test, and development of legacy and contemporary systems, including Defense Fuels Automated Management System (DFAMS) and Fuels Automated System (FAS).

- c. IT Infrastructure, J6FI (DESC-YFI) is established. The following sub-elements are established within J6FI (DESC-YFI): IT Customer Relations, J6FIC (DESC-YFIC); Systems and Network Administration, J6FIS (DESC-YFIS); and Desktop Support, J6FID (DESC-YFID). Elements of the DNSC Office of Resource Management (DNSC-R), the DLA Systems Integration Office-Energy (DSIO-E), DESC Infrastructure Support Division (DESC-SA), and Headquarters IT Services (J-631) are realigned into IT Infrastructure, J6FI (DESC-YFI). IT Infrastructure is responsible for providing technical support and operation of all aspects of the J6F (DESC-YF) IT infrastructure, including desktop, systems, LAN/WAN, and help desk support.
- d. IT Management Support, J6FM (DESC-YFM) is established. The following sub-elements are established within J6FM (DESC-YFM): Resource Management, J6FMR (DESC-YFMR); and IT Procurement, J6FMP (DESC-YFMP). Elements of the DNSC Office of Resource Management (DNSC-R), DLA Systems Integration Office-Energy (DSIO-E), DESC Infrastructure Support Division (DESC-SA), Elements of DLA Enterprise Support IT Contract Branch (DES-AC), and Headquarters IT Services (J-631) are realigned into IT Management Support, J6FM (DESC-YFM). DSIO-E Financial Management resources and associated mission, functions, and resources are disestablished and realigned to J-8. IT Management Support provides asset management, budget planning, IT acquisition and procurement, customer relations, and other management functions to J6F (DESC-YF).

G. J-6 New Cumberland, J6N (DDC-YN): J6N provides IT services to all elements of the Defense Distribution Center, the Document Automation and Production Service (DAPS), J-1's Customer Support Office-New Cumberland (CSO-N), and the Systems Integration staff aligned with Utah but physically located in New Cumberland. The DAPS is responsible for all printing services and related automation technology in support of the DoD. J6N (DDC-YN) is responsible for management of all major Automated Information Systems in support of DDC and DAPS locations worldwide. The following organizational elements and their missions, functions, and resources are affected as follows:

- 1. DDC Information Operations Directorate (DDC J-6) and its sub-elements are disestablished.
- 2. The DAPS Information Technology Services Division (DAPS-I) is disestablished and realigned as DAPS-YN.
- 3. Operations, J6NO (DDC-YN) is established by realigning the IT Operations Division. J6NO (DDC-YN) is responsible for oversight and execution of the IA program supported by J6N (DDC-YN); responsible for technical support and

- operation of J6N (DDC-YN) IT infrastructure; responsible for providing IT solutions to all systems and users supported by J6N (DDC-YN).
4. Information Assurance, J6NOA (DDC-YNOA) is established by realigning the DDC Information Assurance elements. J6NOA (DDC-YNOA) is responsible for oversight and execution of the IA program covering all systems and users supported by J6N (DDC-YN).
 5. IT Infrastructure/Solutions, J6NOI (DDC-YNOI) is established by realigning the DDC IT Systems/Network Architecture elements. J6NOI (DDC-YNOI) is responsible for providing technical support and operation of all aspects of the J6N (DDC-YN) IT infrastructure, including servers, desktops, systems, LAN/WAN, and help desk support. It is also responsible for providing IT solutions to all systems and users supported by J6N (DDC-YN).
 6. IT Management Support, J6NOM (DDC-YNOM) is established by realigning the DDC Business Office elements. J6NOM (DDC-YNOM) will be responsible for all IT administrative support, budget formulation, and related management functions.
 7. DSS, J6NG (DDC-YNG) is established by realigning the Core Delivery Systems Division elements. J6NG (DDC-YNG) is responsible for the Distribution Systems Support (DSS) functions.
 8. DSS Solutions, J6NGS (DDC-YNGS) is established by realigning the Enterprise System Support, DSS Technical Support, DDS Hardware Support and the Configuration Management elements. J6NGS (DDC-YNGS) is responsible for all DSS Support, Data and Configuration Management, Application Development, and Hardware and Technical Support.
 9. Depots, J6ND (DDC-YND) is established by realigning the DDC IT elements located at all DDC depots. J6ND (DDC-YND) elements provide IT support of DSS at the Depots.
 10. Directorate of Document Management Services, J6NH (DAPS-YNH) is established by realigning the DAPS-I with corresponding field office information assurance, infrastructure and IT solutions elements. The J6NH (DAPS-YNH) provides information operations oversight, leadership, and focus in the DAPS role as provider of best value document automation, management, and production solutions in support of the DoD and the Federal Executive Branch Agencies. The mission includes establishing an overall document strategy, including modules that address document composition, document management, records management, knowledge management, digital asset management, output and distribution of digital and hardcopy information.

H. J-6 Pacific, J6H (DLAP-YH): J6H provides IT services to all DLA elements in the Pacific, including DLA-Pacific (DLA-P), DLA Enterprise Support-Pacific (DES-DP), Defense Supply Center Philadelphia-Pacific (DSCP-P), Defense Energy Support Center-Pacific (DESC-PAC), Defense Reutilization and Marketing Service Forward Support Team—Operations Asia/Pacific (DRMS-OA), Defense Reutilization and Marketing Service PACOM Support Branch (DRMS-SAA), Defense Automation and Printing Service-Pacific (DAPS-P), Defense Logistics Information Service (DLIS), DLA Criminal Investigations Activity (DCIA), and Defense Supply

Center Richmond (DSCR). The following organizational elements and their missions, functions, and resources are affected as follows:

1. J-6 Pacific, J6H (DLAP-YH) is established by realigning the following elements from DES-DP, DAPS-P, DESC-P, DSCP-P and DRMS:
 - a. Elements of DES-DP IT are aligned into the J6H (DLAP-YH) Director and Deputy.
 - b. Information Assurance, J6HA (DLAP-YHA) is established. Elements of DES-DP IT are realigned into Information Assurance, J6HA (DLAP-YHA). Information Assurance provides solutions, products and services to achieve information assurance and protect information systems and networks. IT Solutions, J6HS (DLAP-YHS) is established.
 - c. IT Infrastructure, J6HI (DLAP-YHI) is established. The following sub-elements are established within J6HI (DLAP-YHI): US Pacific Operations, J6HIH (DLAP-YHIH); Japan Operations, J6HIJ (DLAP-YHIJ); Korea/Guam Operations, J6HIK (DLAP-YHIK); and Telecommunications, J6HIT (DLAP-YHIT). Elements of DES-DP IT, DSCP-P IT, DRMS IT, and DESC-P are realigned into J6HI (DLAP-YHI). J6HI (DLAP-YHI) provides IT support and ensures reliable operations of networking, data and information infrastructures.
 - d. IT Solutions and Management Support, J6HS (DLAP-YHS) is established. Elements of DESC-P IT and DES-DP IT are realigned into J6HS (DLAP-YHS). The J6HS (DLAP-YHS) provides solutions through the use of technology to enhance the customers' ability to accomplish their missions IT Management Support provides support for IT resource requirement planning and IT asset management.

I. J-6 Philadelphia, J6P (DSCP-YP): J6P provides IT services to the Defense Supply Center Philadelphia (DSCP). The following organizational elements and their missions, functions, and resources are affected as follows:

1. The Directorate of Operations Logistics and Technology (DSCP-OS) and its sub-elements are disestablished as shown below:
 - DSCP-OS: Associate Director of Logistics and Technology
 - DSCP-OSC: Infrastructure Management Division and its sub-elements
 - DSCP-OSI: Information Management Division and its sub-elements
 - DSCP-OSZ: eBusiness Management Division and its sub-elements
2. The DLA Systems Integration Office-Philadelphia (DSIO-P) and its sub-elements are disestablished.
3. The Directorate of Operations' Communication Planning Branch (DSCP-OP) Telecommunications Management and IT Contract Administration missions, personnel, resources, administration and functions are realigned to J6P (DSCP-YP) elements.
4. J6P (DSCP-YP) is established by realigning the following elements from DSCP-O and DSIO-P:
 - a. The Office of the Director, J6P (DSCP-YP) is established, and directs the accomplishment of complete local IT service support to DSCP and other

assigned DLA organizations in the Philadelphia area and provides enterprise services to DLA for designated areas of responsibility.

- b. Information Assurance Branch (DSCP-OSII) is realigned into Information Assurance, J6PA (DSCP-YPA) and its sub-elements. The Business Continuity Operations (COOP) mission and function is realigned to DSS and the IT COOP mission and function is realigned to Infrastructure Support, J6PII (DSCP-YPPII). Information Assurance manages J6P's (DSCP-YP) Information Assurance and Configuration Management programs. Information Assurance is established as follows:
 - J6PA (DSCP-YPA): Information Assurance
 - J6PAE (DSCP-YPAE): IA Environment and Resources
 - J6PAO (DSCP-YP AO): IA Operations
- c. Infrastructure Management Division (DSCP-OSC), including the Technology Support Branch (DSCP-OSCC), the Platform Management Branch (DSCP-OSCM) and the Infrastructure Branch (DSCP-OSCI), and the Technical/Database Division (DSIO-PB) are realigned into IT Infrastructure, J6PI (DSCP-YPI), and its sub-elements. J6PI (DSCP-YPI) is responsible for IT COOP, telephones, cell phones and other mobile devices, PC, mid-tier level Computing, the LAN/WAN, and Remote Access infrastructure that integrate all DLA users; responsible for telecommunications hardware, software and technical support services; and technically assists end-users at their workstations. J6PI (DSCP-YPI) is organized as follows:
 - J6PI (DSCP-YPI): IT Infrastructure
 - J6PIC (DSCP-YPIC): Customer Support
 - J6PII (DSCP-YPPII): Infrastructure Support
 - J6PIN (DSCP-YPIN): Network Support
 - J6PIP (DSCP-YPPIP): Platform Support
- d. Information Management Division (DSCP-OSI), including the Application Management Branch (DSCP-OSIM), the Development and Data Administration functions of the Asset Management Branch (DSCP-OSIA), the Technical/Database Support Division (DSIO-PB), and Applications Software Support Division (DSIO-PC) are realigned into IT Enterprise Business Solutions, J6PS, (DSCP-YPS) and BSM Solutions, J6PB (DSCP-YPB) and their sub-elements. The eBusiness Management Division (DSCP-OSZ), including the eCommerce Branch (DSCP-OSZD), the eStrategy Branch (DSCP-OSZI), the Electronic Data Interchange Branch (DSCP-OSZE) and the eMarketplace Branch (DSCP-OSZM), is realigned into J6PS (DSCP-YPS) and its sub-elements. J6PS (DSCP-YPS) is responsible for teaming with customer's business process innovation teams to model processes and acquire, integrate, build and sustain IT business systems, and provides consolidated support for eWorkplace and the various eBusiness systems utilized by the Defense Supply Center Philadelphia. Serves as enterprise consultant on issues relative to existing and emerging eBusiness methods deemed appropriate by DLA integration efforts. IT Enterprise Business Solutions is organized as follows:
 - J6PS (DSCP-YPS): IT Enterprise Business Solutions

J6PSC (DSCP-YPSC): eCommerce Solutions

J6PSI (DSCP-YPSI): Information Data Management Solutions

J6PSM (DSCP-YPSM): eMarketplace

J6PSS (DSCP-YPSS): Strategic Business Solutions

J6PSW (DSCP-YPSW): Enterprise Web Solutions

- e. The BSM Sustainment functions of the BSM/Admin Support Division (DSIO-PA) are realigned into BSM Solutions, J6PB, (DSCP-YPB) and its sub-elements. BSM Solutions provides enterprise-level IT services in support of BSM; provides support for the BSM Business Warehouse and internal/external reporting requirements for BSM; and, in concert with J6C (DSCC-YC), provides build and sustainment support for BSM. J6PB (DSCP-YPB) supports local commodity initiatives and provides Legacy systems support for activities serviced by J6P (DSCP-YP). J6PB (DSCP-YPB) is established as follows:

J6PB (DSCP-YPB): BSM Solutions

J6PBB (DSCP-YPBB): Business Management Information Center

J6PBE (DSCP-YPBE): Enterprise Sustainment

J6PBI (DSCP-YPBI): Innovation / Integration

- f. IT Management Support, J6PM (DSCP-YPM), and its sub-elements are established. The Administrative Functions from the BSM/Administrative Support Office (DSIO-PA) and the IT Contract Administration function from the Communications Planning Branch (DSCP-OPI) are realigned to IT Management Support, J6PM (DSCP-YPM) and its sub-elements. DSIO-P Financial Management resources and associated mission, functions, and resources are disestablished and realigned to J-8. IT Management Support coordinates J6P financial, organizational, human capital, IT assets, and IT customer relationship management. Develops and administers IT policies and plans for J6P (DSCP-YP). Manages and monitors IT service, equipment, and software acquisitions. IT Management Support is established as follows:

J6PM (DSCP-YPM): IT Management Support

J6PMA (DSCP-YPMA): IT Acquisition and Asset Management

J6PMB (DSCP-YPMB): IT Business Management and Assessment

J. J-6 Richmond, J6R (DSCR-YR): J6R provides IT services to Defense Supply Center Richmond (DSCR). The following organizational elements and their missions, functions, and resources are affected as follows:

1. The Legacy Systems Support and Information Resources Business Management Office (DSCR-OA) is disestablished.
2. The Legacy Systems Support and Information Resources Information Management Division (DSCR-OD) and its sub-elements are disestablished.
3. The Legacy Systems Support and Information Resources Operations Division (DSCR-OP) and its sub-elements are disestablished.
4. J6R (DSCR-YR) is established by realigning the following elements:
 - a. Elements of DSCR-O are realigned into J6R (DSCR-YR) Director, Deputy, and Directorate Secretary. J6R (DSCR-YR) will serve as principal information technology advisor to the DSCR Commander, providing guidance, planning, administration, and information technology management.

- b. Information Assurance, J6RA (DSCR-YRA), Information Assurance, is established. Elements of DSCR-ODI are realigned into Information Assurance, J6RA (DSCR-YRA). Information Assurance provides the technical and managerial measures designed to assure the confidentiality, possession or control, integrity, authenticity and utility of information and information systems are in place.
- c. DSCR-OD is realigned into IT Solutions, J6RS (DSCR-YRS). IT Solutions are responsible for the Configuration Management, Internal/External Solutions Development, and Systems Integration support for DSCR. This support is provided in the following subordinate branches:
 - i. Configuration Management, J6RSA (DSCR-YRSA), is established. All elements of DSCR-ODC are realigned into IT Solutions, Configuration Management Branch, J6RSA (DSCR-YRSA).
 - ii. Systems Integration, J6RSB (DSCR-YRSB), is established. Elements of DSCR-ODI are realigned into IT Solutions, Systems Integration Branch, J6RSB (DSCR-YRSB).
 - iii. External Solutions, J6RSC (DSCR-YRSC), is established. All elements of DSCR-ODX are realigned into IT Solutions, External Solutions, J6RSC (DSCR-YRSC).
 - iv. Internal Solutions Development, J6RSD (DSCR-YRSD), is established. All elements of DSCR-ODZ are realigned into IT Solutions, Internal Solutions Development Branch, J6RSD (DSCR-YRSD).
- d. IT Infrastructure, J6RI (DSCR-YRI), is established. DSCR-OP is realigned into J6RI (DSCR-YRI). J6RI (DSCR-YRI) is responsible for Applications Support, End User Computing Customer Support, Productions Support, Telecommunications Management, Systems, and Communications. This support is provided in the following subordinate branches:
 - i. Applications Support, J6RIA (DSCR-YRIA), is established. All elements of DSCR-OPA are realigned into IT Infrastructure, Applications Support Branch, J6RIA (DSCR-YRIA).
 - ii. End-User Support, J6RIB (DSCR-YRIB), is established. All elements of DSCR-OPC are realigned into IT Infrastructure, End-User Support Branch, J6RIB (DSCR-YRIB).
 - iii. Systems Support, J6RIC (DSCR-YRIC), is established. All elements of DSCR-OPS are realigned into IT Infrastructure, Systems Support Branch, J6RIC (DSCR-YRIC).
 - iv. Telecommunications Support, J6RID (DSCR-YRID), is established. All elements of DSCR-OPT are realigned into IT Infrastructure, Telecommunications Support Branch, J6RID (DSCR-YRID).
 - v. Operations Support, J6RIE (DSCR-YRIE), is established. All elements of DSCR-OPX are realigned into IT Infrastructure, Operations Support Branch, J6RIE (DSCR-YRIE).
- e. IT Management Support Office, J6RM (DSCR-YRM), is established. All Elements of DSCR-OA are realigned into the IT Management Support Office, J6RM (DSCR-YRM). The IT Management Support Office includes Business

Services such as Budget, Personnel, Correspondence, Contract Management, and other Administrative Tasks.

K. J-6 Utah, J6U (DDC-YU): J6U provides IT services to DLA with an emphasis on IT Solutions and development of many DLA applications. These systems service many DLA customers such as the Defense Distribution Center (DDC), Defense Reutilization and Marketing Service (DRMS), and DLA Headquarters. The following organizational elements and their missions, functions, and resources are affected as follows:

1. DSIO-U and its sub-elements are disestablished.
2. J6U (DDC-YU) is established by realigning the following elements from DSIO-U:
 - a. Elements of DSIO-U Director, Deputy Director, and Business Management and Administrative Staff are realigned to J6U (DDC-YU) Director and Deputy.
 - b. Information Assurance, IT Infrastructure, and Configuration Management, J6UI (DDC-YUI), is established. The following sub-elements of J6UI (DDC-YUI) are established: IT Infrastructure, J6UIA (DDC-YUIA); Information Assurance Configuration Management, J6UIB (DDC-YUIB); and Oracle Solutions, J6UIC (DDC-YUIC). Elements of the Technical/Data Base/Configuration Management Division (DSIO-UC) and DSS and Base Operation Support System (BOSS) Development, Implementation and Support West Division (DSIO-UD) are realigned to Information Assurance, IT Infrastructure, and Configuration Management, J6UI (DDC-YUI). This division provides the information assurance, technical and managerial measures designed to assure the confidentiality, possession or control, integrity, authenticity and utility of information and information systems in place. It is also responsible for LAN/WAN infrastructure that integrates all supported users; telecommunications hardware and software support, acquisition, installation, and technical support services; and manages and administers the network infrastructure, which includes the computer room, LAN/WAN/Enterprise Telecommunications Network (ETN), and servers. It also provides cradle-to-grave life cycle management for all IT development, including change management, configuration management, and release management.
 - c. Distribution Gateway, J6UE (DDC-YUE), is established. The following sub-elements are established within J6UE (DDC-YUE): Issues and Gateway, J6UEA (DDC-YUEA); Materiel Receipt, J6UEB (DDC-YUEB); and Management Information, J6UEC (DDC-YUEC). Elements of the DSS and BOSS Development, Implementation and Support West Division (DSIO-UD) are realigned into J6UE (DDC-YUEC). This division manages the portfolio of IT projects for J-6 DSS. These solutions include Materiel Issue Processing, Management Information System, DSS Receiving, and others.
 - d. Distribution Management, J6US (DDC-YUS), is established. The following sub-elements are established within J6US (DDC-YUS): Shipping and Transportation, J6USA (DDC-YUSA); Materiel Accountability, J6USB (DDC-YUSB); and Warehouse Operations, J6USC (DDC-YUSC). The DSS Development, Implementation and Support East Division (DSIO-UA) is

realigned into J6US (DDC-YUS). This division manages the portfolio of IT projects for J6 Distribution Standard System (DSS). These solutions include Shipping, Inventory, Transportation, and others.

- e. Tailored Logistics, J6UT (DDC-YUT), is established. The following sub-elements are established within J6UT (DDC-YUT): Tailored Applications, J6UTA (DDC-YUTA); Automated Equipment Integration, J6UTB (DDC-YUTB); and IT Technical Services, J6UTC (DDC-YUTC). The Unique Applications and Eastern Support Division (DSIO-UB) is realigned into J6UT (DDC-YUT). This division manages the portfolio of IT projects for J-6 Distribution Standard System (DSS) and miscellaneous other systems related to the distribution mission. These solutions include Equipment Control System, Small Arms, Total Asset Visibility, and others.
- f. IT Management Support, J6UM (DDC-YUM), is established. The following sub-elements are established within J6UM (DDC-YUM): Environmental Solutions, J6UMA (DDC-YUMA); and Support Solutions, J6UMB (DDC-YUMB). The Environmental Systems Division (DSIO-UE) is realigned into J6UM (DDC-YUM). DSIO-U Financial Management resources and associated mission, functions, and resources are disestablished and realigned to J-8. This division provides IT management support including asset management and IT solutions for Environmental systems and miscellaneous other systems that support DLA such as Map Support Office Distribution System (MSODS), Equipment Management and Control System (EMACS); and Safety Health and Information Report System (SHIRS).

“Y” Codes for J-6 Transformation

The “Y” organizational code structure has been designated as the approved structure for reporting information technology payroll and cost execution. Deviations from this standard model are not authorized. An example of a “clear text” description for the Defense Supply Center Richmond Information Assurance Office, J6RA (DSCR-YRA) is:

Y = J-6 Information Operations

Alpha 2 = J-6 Information Operations Richmond

Alpha 3 = Information Assurance

Alpha 1 = Enterprise Organizational Code (J-6 Information Operations) – The “Y” Code

Alpha 2 = Geographical Location

B = Battle Creek

C = Columbus

D = DAASC

R = Richmond

P = Philadelphia

N = New Cumberland

H = Hawaii

E = Europe

F = Fort Belvoir

U = Ogden

Alpha 3 = Cost Area

Enterprise Organization Codes

A = Information Assurance

I = Infrastructure

M = Management Support

S = Solutions

Unique Organization Codes

B = BSM Solutions (J6C and J6P)

C = DLA CERT (J6C)

D = Depots (J6N)

E = Enterprise Systems (J6B)

F = Contingency Support (J6E)

G = Distribution (J6N and J6U)

H = Document Management Services (J6N)

L = Tailored Logistics (J6U)

N = NeMO (J6C)

O = Operations (J6C and J6N)

P = IT Plans and Programs (J6E)

Q = Headquarters

T = Technology Management (J6B)

Alpha 4 and 5 = Optional

III. Pursuant to sited authority and effective July 1, 2004, the transformation concept for the J-8 Financial Operations will take place. Effective October 3, 2004, the Financial Operations organizations of every DLA Activity and Headquarters (HQ) organization are operationally aligned with the Headquarters J-8 are as follows:

A. The Weapon System & Troop Support Team J-831 will provide on-site financial management support to J-3 for weapon system and troop support. The financial management functions from J-38 related to weapon systems and troop support are realigned to J-831.

B. The Energy, Distribution, and Reutilization Team (J-832) will provide on-site financial management support to J-3 for Energy, Distribution and Reutilization. The financial management function from J-38 related to Energy, Distribution, and Reutilization are realigned to J-832.

C. The teams aligned under J-87 are renamed and realigned as follows:

- 1. The Integration & Corporate Operations Team (J-873) is renamed the Integration & Enterprise Management Operations Team. The financial management functions from J-16, J-38, and DLA Enterprise Support (DES) Business Management Office (DES-B) for Enterprise management are realigned to this team. This team will provide on-site financial management support to J-1, J-3, J-4, and DES. This team will also provide financial management support to DLA-Europe and DLA- Pacific.

2. The Information Operation Financial Support Team (J-872) is renamed the Enterprise Information Technology Financial Team.
3. The Information Technology Financial Operations Team is established and the financial management function from J-65 is realigned to this team. The Defense Logistics Information Center (DLIS-RC) and the financial management resources from Defense Logistics Automatic Addressing System Center (DAASC) and The Defense Systems Integration Office (DSIO-E) report through the J-874 senior financial management supervisor. This team (J-874) will provide on-site financial management support to J-6. The financial management resources from DSIO-J are realigned to the financial management organization on-site at DLIS.

D. The Defense Distribution Center (DDC) Directorate of Financial Operations (J-8) is operationally aligned with HQ Financial Operations J-8. DDC J-8 remains organizationally aligned to provide on-site financial support to the DDC New Cumberland, PA. The DDC J-8 resources are under operational control of HQ J-8 while the on-site staff remains on the rolls of DDC. The day to day staff work will be conducted as a collaborative effort between the on-site DDC financial management staff and the HQ J-8 financial operations teams for program budget and accounting financial services. Financial Management resources for the Inter-service support agreements are realigned from DDC- J-3 to DDC J-8, Financial Policy and Planning Division. The financial management resources from DSIO-U are realigned to DDC J-8, Financial Policy and Planning Division.

E. The Defense Energy Supply Center (DESC), Directorate of Resources Management (DESC-R) is renamed Financial Operations and is operationally aligned with HQ J-8. DESC-R remains organizationally aligned to provide on-site financial management support to the DESC, Fort Belvoir, Virginia. The DESC-R resources are under operational control of HQ J-8, while the on-site staff remain on the rolls of DESC. The day to day staff work will be conducted as a collaborative effort between the on-site financial management staff and the HQ J-8 financial operations teams for program budget and accounting financial services.

F. The Defense Reutilization and Marketing Service (DRMS) Office of the Comptroller (DRMS-R) is renamed Financial Operations and is operationally aligned with the HQ Financial Operations, J-8. DRMS-R remains organizationally aligned to provide on-site financial management support to DRMS Battle Creek, MI. The DRMS-R resources are under operational control of HQ J-8, while the on-site staff remain on the rolls of DRMS. The day to day staff work will be conducted as a collaborative effort between the on-site financial management staff and the HQ J-8 financial operations teams for program budget and accounting financial services.

G. The Defense National Stockpile Center (DNSC) Planning and Financial Services Division (DNSC-RF) of the Office of Resources Management (DNSC-R) is operationally aligned with the HQ J-8. DNSC-RF remains organizationally aligned to provide on-site financial management support to DNSC Fort Belvoir, Virginia. The DNSC-RF resources are under operational control of HQ J-8, while the on-site staff remain on the rolls of DNSC. The day to day staff work will be conducted as a collaborative effort between the on-site financial management staff and the HQ J-8 financial operations teams for program budget and accounting financial services.

H. The Document Automation & Production Service (DAPS) Resource Management Division (DAPS-R) is renamed Financial Operations and is operationally aligned with the HQ J-8. DAPS-R and the financial management resources in the DAPS Office Groups remain organizationally aligned to provide on-site financial management support to DAPS. The DAPS-R resources and financial management resources in the DAPS Office Groups are under operational control of HQ J-8, while the on-site staff remain on the rolls of DAPS. The day to day staff work will be conducted as a collaborative effort between the on-site financial management staff and the HQ J-8 financial operations teams for program budget and accounting financial services.

I. The changes in the Defense Supply Center Richmond Planning and Resource Management (DSCR-R) organization are as follows:

1. DSCR-R is renamed Financial Operations and is operationally aligned with HQ J-8. DSCR-R financial management resources remain organizationally aligned to provide on-site financial management support to DSCR. The DSCR-R resources are under operational control of HQ J-8, while the on-site staff remain on the rolls of DSCR. The day to day staff work will be conducted as a collaborative effort between the on-site financial management staff and the HQ J-8 financial operations teams for program budget and accounting financial services.
2. The Planning Division (DSCR-RP) and Program Management Branch (DSCR-RPM) is disestablished. The missions, personnel, resources, administration and functions are realigned to the Planning and Program Management Office (DSCR-DS).
3. Disestablish Resource Management Division (DSCR-RR), the Aviation Resource Management Branch (DSCR-RRA), the Operation Resourcing and Management Branch (DSCR-RRO), and the Inventory Resourcing and Pricing Branch (DSCR-RRS). Establish Site Integration Program Office (DSCR-RP) and the Aviation Budget Office (DSCR-RA). Realign the mission, personnel, resource administration and functions from DSCR-RRS to DSCR-RA and from DSCR-RR, DSCR-RRA and DSCR-RRO to DSCR-RP.
4. Establish Process Management Branch with an organizational symbol of DSCR- RW. Disestablish the Process Engineering Branch (DSCR-RPE). The personnel and resources are realigned to DSCR-RW. The financial management resources from DSCR-B are realigned to DSCR-RW.
5. Disestablish the Material Branch DSCR-RFA and the Operations Branch, DSCR-RFB. The Financial Services Division, DSCR-RF will be renamed the Financial Services Office, DSCR-RF.

J. The changes in the Defense Supply Center Philadelphia Office of Comptroller DSCP-R are as follows:

1. DSCP-R is renamed Financial Operations and is operationally aligned with HQ J-8. DSCP-R financial management resources remain organizationally aligned to provide on-site financial management support to DSCP. The DSCP-R resources are under operational control of HQ

J-8, while the on-site staff remain on the rolls of DSCP. The day to day staff work will be conducted as a collaborative effort between the on-site financial management staff and the HQ J-8 financial operations teams for program budget and accounting financial services.

2. The Staff and Administration Division (DSCP-RS) is renamed. The functions, personnel, and resources are realigned to the Site Integration Program Office (DSCP-RP). The Financial Systems & Administration Support Division (DSCP-RW) is renamed the Process Management Office (DSCP-RW).
3. The Financial Services Division (DSCP-RX), the Material Branch (DSCP-RXM) and the Defense Business Management Systems (DBMS)/Operations Branch (DSCP-RXO) are disestablished. The mission, functions, personnel, and resources are realigned to the Financial Services Offices (DSCP-RF), the Financial Services-Customer Liaison Office (DSCP-RFC), the Financial Services Supplier Liaison Office (DSCP-RFS) and the Financial Services Operations Liaison Office (DSCP- RFP).
4. The financial management resources in DSIO-P are realigned to DSCP-RP.
5. The General and Industrial Division (DSCP-RI) is disestablished. The mission, functions, resources, and personnel are realigned to the Construction and Equipment Division (DSCP-RC). Budget responsibility for the land, maritime and aviation detachment office will be accomplished in this organization.
6. The Clothing and Textiles Division (DSCP-RF) is realigned to the Clothing and Textiles Division (DSCP-RQ).
7. The Medical Division (DSCP-RM) is realigned to the Medical Division (DSCP-RS).
8. The Subsistence Division (DSCP-RH) is realigned to the Subsistence Division (DSCP-RT).

K. The changes in the Defense Supply Center Columbus Office of the Comptroller (DSCC-R) organization alignment are as follows:

1. DSCC-R is renamed Financial Operations and is operationally aligned with HQ J-8. DSCC-R financial management resources remain organizationally aligned to provide on-site financial management support to DSCC. The DSCC-R resources are under the operational control of HQ J-8, while the on-site staff remain on the rolls of the DSCC. The day to day staff work will be conducted as a collaborative effort between the on-site financial management staff and the HQ J-8 financial operations teams for program budget and accounting financial services.
2. Disestablish the Financial Services Division (DSCC-RRF) and establish the Financial Services Office (DSCC-RF). The DSCC-RRF mission, personnel, resources, administration, and functions are realigned to DSCC-RF.
3. Establish the Site Integration Program Division (DSCC-RP). Realign mission, personnel, resources, administration and functions from the Budget Division (DSCC-RRR) to DSCC-RP.
4. Establish the Land Budget Division (DSCC-RL). Realign missions, functions, and personnel from DSCC-RRR to DSCC-RL.
5. Establish the Maritime Budget Division (DSCC-RM). Realign missions, functions, and personnel from the Budget Division DSCC-RRR to DSCC-RM. Disestablish the Budget Division (DSCC- RRR).
6. Establish the Process Management Division (DSCC-RW). Realign missions, functions, and positions from the BSM Financial Team (DSCC-BLF) to DSCC-RW.

Disestablish DSCC-BLF.

7. The financial management resources located in DSIO-S are realigned to DSCC-RP.

III. Pursuant to cited authority and effective July 1, 2004, the Enterprise Transformation concept will take place. Effective October 3, 2004 the DLA Support Services (DSS) is disestablished and its missions, personnel, resources, administration, and functions are reestablished as DLA Enterprise Support (DES), under the Director, DLA. The Field Activities' (FA) support organizations will be disestablished and their missions, personnel, resources, administration, and functions are re-established as DLA Enterprise Support (FA name), under the Director, DES.

A. The following Headquarter DES organizational elements including personnel will remain at their present locations but are realigned under DES:

- 1. DLA Base Realignment and Closure Office (DSS-DB) as (DES-DB).
- 2. DLA Pacific Support (DSS-DP) as (DES-DP).
- 3. Protocol and Special Events Office (DSS-DS) as (DES-DS).
- 4. Acquisition (DSS-A) as (DES-A).
 - A. Contract Operations Division (DSS-AC) as (DES-AC).
 - B. Information Technology/Contract Support Division (DSS-AT) as (DES-AT).
- 5. Business Management (DSS-B) as (DES-B).
 - A. Financial Services Division (DSS-BF) renamed as Business Planning Division (DES-BB); the mission, functions, responsibilities, personnel, and resources for the Agency-level management of the Government Purchase Card will be realigned to Acquisition (DES-A).
 - B. General Services Division (DSS-BG) as (DES-BG).
 - C. Contingency Planning Division (DSS-BP) as (DES-BP).
 - D. Travel Services Division (DSS-BT) as (DES-BT).

6. Environment and Safety (DSS-E) renamed as Environment, Safety, and Occupational Health (DES-E).
 - A. Health and Safety Division is established as DES-EH.
 - B. Environmental Division is established as DES-EQ.
7. Corporate Installations (DSS-I) renamed Installation Management (DES-I).
 - A. HQC Installations Division (DSS-IF) as (DES-IF) with the Customer Support Branch (DSS-IFC) as (DES-IFC), and the Installations Management Branch (DSS-IFM) as (DES-IFM).
 - B. Installations Program Division (DSS-IM) as (DES-IM).
 - C. Installations Policy Division (DSS-IP) as (DES-IP); the missions, responsibilities, and personnel for the Fire and Emergency Services program are transferred to Public Safety (DES-SE).
8. Management Support Staff (DSS-M) as (DES-M).
9. Quality of Life (DSS-Q) renamed as Morale, Welfare and Recreation (DES-Q).
 - A. Child and Youth Services Division (DSS-QC) as (DES-QC).
 - B. Family Support Services Division (DSS-QF) as (DES-QF).
 - C. General Support Division (DSS-QG) as (DES-QG).
 - D. Morale, Welfare, and Recreation Division (DSS-QM) as (DES-QM).
10. DLA Defense Plans and Analysis Office (DSS-R) as (DES-R).
11. Command Security (DSS-S) renamed as Public Safety Office (DES-S).
 - A. Personnel Security Division (DSS-SC) as (DES-SC).
 - B. Plans/Policy/Education and Awareness Division (DSS-SE) as (DES-SE).
 - C. Intelligence/Special Programs Division (DSS-SI) as (DES-SI).
 - D. Security Operations Division (DSS-SO) as (DES-SO) with the Headquarters Security Operations Branch (DSS-SOO) as (DES-SOO).
12. Technical Support (DSS-T) renamed as Multimedia (DES-T).
 - A. Visual Presentations Division (DSS-TG) as (DES-TG).
 - B. Visual Communications Division (DSS-TV) as (DES-TV).

The following Headquarters DES responsibilities will be realigned from DES:

1. The policy oversight of general investigations will be transferred from Security (DES-S) to the DLA Criminal Investigations Activity (DI).
2. The responsibilities for the Federal Activity Inventory Reform Act will be transferred from the DES-B to Logistics Operations (J-3).

The following J-3 responsibilities will be realigned to DES:

1. The responsibilities for the DLA One Book will be realigned from Logistics Operations Business Modernization (J-32) to Multi-media (DES-T).
- B. The Defense Supply Center Richmond (DSCR) Support Services (DSCR-S) is disestablished and its missions, personnel, resources, administration, and functions are reestablished as DLA Enterprise Support DSCR (DSCR-S), under the Director, DES. The following DSCR

organizational elements, including personnel, will remain at their present locations, but their functions and organizational structure are aligned under DES:

1. The Office of the Director (DSCR-S) is disestablished and realigned as the DLA Enterprise Support DSCR (DSCR-S).
2. The Environmental Office (DSCR-SD) and the Safety and Health Branch (DSCR-SFH) are disestablished and its missions, personnel, resources, administration and functions realigned within the Environment, Safety and Occupational Health Office (DSCR-SD).
3. The Quality of Life Office (DSCR-SQ) is disestablished and realigned as the Morale, Welfare and Recreation Office (DSCR-SQ).
4. The Corporate Protection Office (DSCR-SF) is renamed the Public Safety Office and will retain the office symbol DSCR-SF.
5. The Facilities Engineering Operations Office (DSCR-SI) and the Equipment Maintenance Office (DSCR-SE) are disestablished. The personnel, missions, functions and administration are reorganized, aligned and incorporated into the Installation Management Office (DSCR-SI). The Equipment Maintenance Office (DSCR-SE) will become the Equipment Maintenance Branch (DSCR-SIE) reporting to the Installation Management Chief. Space planning and utilization functions and personnel will transfer to Installation Management (DSCR-SI).
6. The Public Affairs Office (DSCR-SP) is disestablished and multimedia functions transferred to the Business Management Office (DSCR-SX). The remaining Public Affairs functions are realigned under the Commander, DSCR.
7. The Administrative Services Office (DSCR-SX) is disestablished and realigned under the Business Management Office (DSCR-SX). All personnel, resources, functions and missions except space planning and utilization are transferred to the new organization. Program Management Branch A and Program Management Branch B are disestablished and realigned as the Business Operations Branch (DSCR-SXS). The Mail and Distribution Branch (DSCR-SXM) is renamed the Business Support Branch (DSCR-SXM).

C. The Defense Reutilization and Marketing Service (DRMS) Enterprise Support (DRMS-W) is disestablished and its missions, personnel, resources, administration and functions are reestablished as DES DRMS (DRMS-W), under the Director, DES. The following DRMS organizational elements including personnel will remain at their present locations but their functions and organizational structures are aligned under DES:

1. The Safety and Health Division (DRMS-WH) is disestablished and its missions, personnel, resources, administration and functions realigned within the DES DRMS Environment, Safety and Occupational Health Division (DRMS-WH).
